

## **Granite Gorge or The Ten Step Plan for All Expenses Paid Tour from Eastern Block Country to Beautiful Australia Country with Extras**

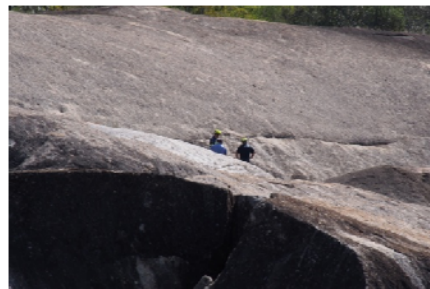

- Step 1. Fly into very nice Cairns airport with flushing toilet places.
- Step 2. Catch nice soft seat tour bus with not so good toilets to place called Granite Gorge.
- Step 3. Take bush walk that leads over granite rocks wearing your best dancing type leather shoes.
- Step 4. Pause to take picture of lovely giant mouse creature (wallaby is called ).
- Step 5. Realize you are a meter or so too far away for good shot with soviet ex-cold war spy camera.
- Step 6. Take one step forward, and this is tricky part, don't take your eye from the the little glass piece for looking through with (viewfinder).
- Step 7. Fall head first into rocky gorge wedging head parts between two large rocks.
- Step 8. Wait patiently for Queensland Fire and Rescue, Intensive Care Ambulance and finally Care Flight Helicopter. All very nice.
- Step 9. Spend unspecified time in intensive care (fed by tube, which is luxury treatment) followed by general hospital ward (not so nice, must chew own food here).
- Step 10. Get first class ride back to mother country.

First class helicopter pick up, no effort, they are winching straight in.

Express to 2 weeks of free R and R.

Ground crew very helpful.

Yes, this did happen while we were there.
